

# Start Packing With *HelenRae Luggage*

In the world of luggage, all black is the new black. HelenRae Luggage is simple, sleek and stylish, and is available in a distinctive soft blue or soft pink piping. These subtle colors give the bags a distinguished, feminine, professional look that is instantly recognizable in the chaos of a busy airport. And, the interior color matches the outside piping of Helen Rae Luggage.

One of the frustration we all face when traveling is preparation for checking in at the airport. No problem with HelenRae Luggage, which features a plastic lined toiletries pocket that is accessible from inside and outside of the bag. This handy pocket makes it easy to grab your items straight out of the pocket, and then neatly slip them back in the bag without worrying about spills or a mess on all of your packed items.

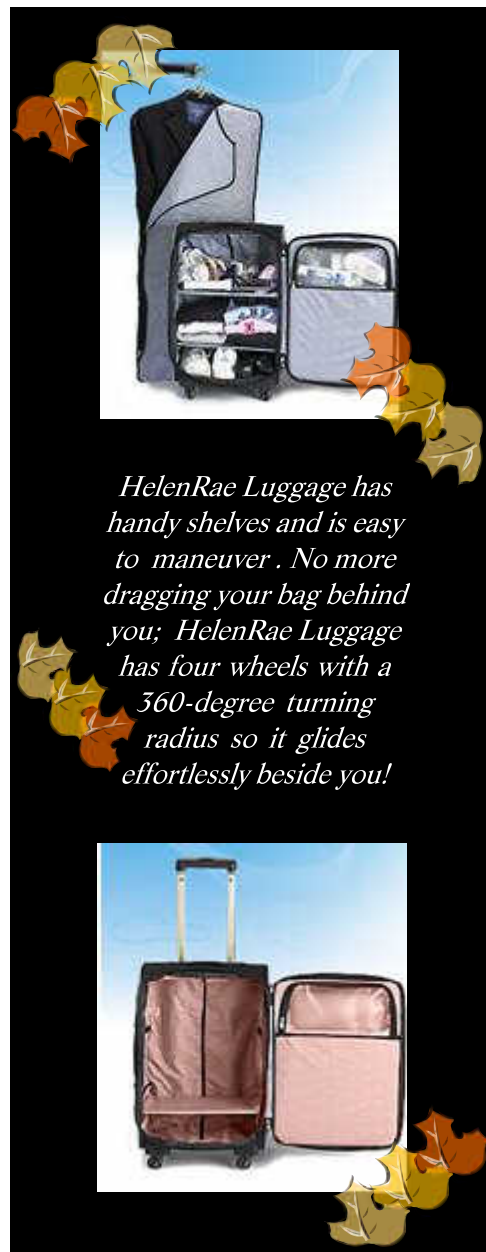

Another wonderful feature of HelenRae Luggage are the easy to remove shelves. Yes, there are

2 internal shelves that are designed to keep items exactly where you want them.

Now you can keep your shirts neatly stacked, shoes securely stored and sundry items precisely placed. Simply remove the shelves when you need extra space for larger items like knee boots. I cannot forget the removable suiter and hanger bag that matches the HelenRae Luggage, and folds neatly within the bag, and it ready to hang your suits wrinkle-free at your destination.

My favorite feature of HelenRae Luggage is the Front Laptop pouch. Slip your laptop in and it is safe and secure in the lined, padded front pouch of the bag. This handy pouch helps eliminate the need for carrying extra baggage, and your laptop is easy to access for the security check.

*Whether traveling a far for business or pleasure packing is a pleasure with HelenRae Luggage!*

*HelenRae Luggage has handy shelves and is easy to maneuver. No more dragging your bag behind you; HelenRae Luggage has four wheels with a 360-degree turning radius so it glides effortlessly beside you!*
